# Wild Flowers

# Wild Flowers

What do you think a wild flower is?

# Wild Flowers

A wild flower is one that grows by itself.

A wild flower seed grows where it falls.

It doesn't need to be planted.

It doesn't need to be cared for as it grows.

If a wild flower grows where it is not wanted, it might be called a weed.

Can you think of any weeds you know?

We are going to look at some common wild flowers.

# Common Wild Flowers

## These are dandelions.

They have bright  
yellow flowers.

They have fluffy white  
seed heads.

Some people like to blow  
the seeds and make a wish!

# Common Wild Flowers

## **These are daisies.**

They have white petals with bright yellow centres.

They grow in the grass.

Sometimes, people use them to make daisy chains.

# Common Wild Flowers

**These are  
buttercups.**

They have shiny  
yellow petals.

They have feathery leaves.

You might have played a  
game where you hold one  
under someone's chin to see  
if it shines yellow!

# In the Garden

# Gardens

Gardens are places where people grow plants.

People like to grow flowers because they are nice to look at.

People plant seeds or bulbs in their garden or in pots and then water them and look after them to help them grow.

You might have a garden where you live.

A public park is a kind of garden for lots of people to enjoy.

# Garden Flowers

poppy

Here are some garden flowers that people grow to look at. Do you recognise any of these flowers?

iris

lily

# Garden Plants

tulip

daffodil

rose

sunflower
