

# Manchester

United Kingdom

What do we already know?

Manchester is a city.

Manchester is diverse.

There has been a Census.

Manchester has many iconic buildings.

Longsight is full of litter.

In Geography, the children will continue mapping skills using DigiMaps, research map symbols and locate significant features of Manchester.

In Art, the children will continue to explore drawing features and incorporate artists such as L.S Lowry into their work.

In Music, the children will perform songs with greater awareness of mood and style. Children can use a variety of vocal techniques during performance. Children can confidently play Steel Pans.

What do we want to learn?

The history of Longsight and its diversity.

What do road signs and symbols mean?

On an aerial map, what do train lines look like?

Why are iconic buildings named after famous people?

In History, the children will continue to identify the ever-changing ethnic diversity in their local area.

In Computing, children will use DigiMaps to support Topic learning and publish work using Microsoft Word.

In Science, children will continue their investigation of the properties of materials and development of their Working Scientifically skills.

In RE, the children will continue their study of Christianity by considering in additional teachings of Jesus and the ways they are applied today.
