

## Key Vocabulary

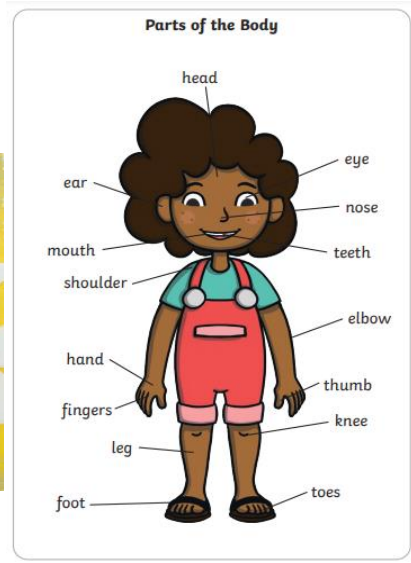

<b>Amphibians</b>	Amphibians live in the water as babies and on land as they grow older. They have smooth, slimy skin.
<b>Birds</b>	All birds have a beak, two legs, feathers and wings.
<b>Fish</b>	Fish live and breathe under water. They have scaly skin, fins to help them swim and breathe through gills.
<b>Mammals</b>	Mammals are animals that breathe air, grow hair or fur and feed on their mother's milk as a baby.
<b>Reptiles</b>	All reptiles breathe air. They have scales on their skin
<b>Carnivores</b>	Animals that mostly eat other animals (meat) are carnivores.
<b>Herbivores</b>	Animals that eat only plants are herbivores.
<b>Omnivores</b>	Animals that eat both plants and other animals (meat) are omnivores.
<b>sight</b>	Your eyes let you see all the things around you
<b>hearing</b>	Your ears let you listen to all the things around you. Your brain tells you what different sounds are.
<b>touch</b>	Your skins gives you the sense of touch. You can tell if something is warm, cold, smooth or rough.
<b>taste</b>	Your sense of taste comes from your tongue. You might have some tastes that you like and ones that you don't.
<b>smell</b>	You smell using your nose. Your nose can tell if things smell nice or not.
