

What do we already know?

- The Stone Age and Bronze Age periods came before the Iron Age.
- People used Bronze and Stone to make tools and weapons.
- Bronze is made out of copper and tin.
- People traded special items such as amber for Bronze weapons and tools.
- They used to hunt wild animals but they didn't do it as much in the Bronze Age.

In English, we will plan, write and edit non-chronological reports.

In History, we will learn about the Iron Age and discover how we know about what life was like then.

In Science, we will continue to investigate why animals and humans need nutrients to survive and why humans and some animals have skeletons and muscles.

In Computing we will collect, analyse, evaluate and present data and information using a variety of software

In DT we will learn basic food preparation and cooking skills to create healthy meals.

In Music, we will begin to recognise and use simple musical notation.

In RE we will be finding out why people pray.

What do we want to learn?

- What did people cook?
- How did they cook their food?
- Where did they get their food from?
- What weapons did they make?
- How did they make them?
- How did they make and discover iron?
- Did they work? Did they have money?
- What muscles do we have?
- How do our muscles work?

Spring 2
Year Three

What was life like in Iron Age Britain and how do we know?
