

# Stargazers

Year Five – Summer 2 2022

## What do we already know?

- Meteors contain magnetic metals
- There are 8 planets in our solar system
- There is no gravity in space
- The sun is the biggest star in our universe
- There are about 100 billion stars in our solar system

## What do we want to learn?

- How long does the moon take to orbit the Earth?
- How far away is Earth from the moon?
- What are stars made out of?
- How big is the universe?
- How long does the Earth take to complete a full orbit?
- How wide is Earth?

In PSHE, we will focus on the changes we will go through as we are growing up.

In Music, we will be continuing our Steel Pan lessons with Mr Yankee.

In English, we will be focusing on using our Stage 5 Features to write journey tales and newspaper reports.

In Science, we will be learning all about Earth and Space

In Geography we will be looking at the world from a bird's eye view focusing on key-topographical features, longitude and latitude and map reading skills.

In MFL, we will be continuing our learning of Spanish with Mr Real.

In DT, we will be focusing on designing, planning, making and evaluating 3D structures.

In PE, we will be taking part in Athletics and Wall Games.

In RE, we will learn in depth from different religious and spiritual ways of life about being a follower of the Muslim
